

Letter of Intent & Pilot Agreement (Draft)

Product: [PlazaOS / PlazaBill — *insert product name*]

Pilot property: [Plaza name, address, FCT-Abuja]

Prepared for: [Landlord full name / company name]

Prepared by: Eric Umeohabike

Instructions: Fill bracketed fields. Print on landlord letterhead if available. Both parties sign. Keep PDF in works/plaza/signed/.

LETTER OF INTENT — DIGITAL PLAZA MANAGEMENT PLATFORM (PILOT)

Date: [DD Month 2026]

Between:

1. **[Landlord Name / Company Name]** (“**the Landlord**”), owner/manager of **[Plaza/Shopping Complex Name]** located at **[full address]**, comprising approximately **[80]** retail shops and office units; and
2. **Eric Umeohabike** (“**the Provider**”), technology lead and estate operations manager for the Property since **[2019]**.

1. Background

The Landlord has engaged the Provider since **2019** to manage day-to-day operations of the Property, including tenant relations, rent collection coordination, and administrative records for **[80+]** units.

The Provider has proposed a proprietary **web and mobile software platform** to digitise rent schedules, payment recording, receipt verification, arrears tracking, expense logging, and tenant communication for the Property.

The Landlord wishes to pilot this platform at the Property and supports its development and phased rollout to tenants.

2. Purpose of pilot

This Letter of Intent confirms the Landlord’s **non-binding intent** to participate in a **90-day pilot** (extendable by mutual written agreement) of the Platform, followed by ongoing commercial use subject to satisfactory performance during the pilot.

Pilot start date: [DD Month 2026]

Pilot end date: [DD Month 2026] — with automatic transition to commercial licence if both parties

agree in writing.

3. Scope of pilot

During the pilot, the Platform will support:

Function	Description
Property registry	Units/shops/offices, tenants, lease terms, rent amounts and due dates
Rent collection tracking	Record of payments including bank transfer references and uploaded receipt proof
Arrears management	Dashboard of outstanding balances and payment history
Management reporting	Monthly collection summaries exportable for accounting
Tenant access (phased)	Selected tenants given access to view balances and submit payment proof via mobile/web

Phased tenant onboarding:

- **Phase 1 (Weeks 1–2):** Management and Landlord admin only; full unit data loaded
- **Phase 2 (Weeks 3–4):** Minimum **5–10** volunteer tenants onboarded
- **Phase 3 (Months 2–3):** Target **15–25+** tenants; new/renewing leases encouraged to use Platform

The Landlord acknowledges that **100% tenant adoption on day one is not required**; success will be measured by accurate records, verified collections, and growing voluntary use.

4. Roles

Party	Role
Landlord	Authorises pilot; provides unit/tenant data; designates staff for receipt verification
Provider (Eric Umeohabike)	Builds and operates Platform; continues estate management duties; trains staff
Tenants	Submit payment proof; view balances where onboarded

5. Commercial terms

The parties agree the following fee structure during and after the pilot:

Option A — Combined services (recommended if single payment today):

Line item	Monthly amount (NGN)
Estate / plaza management services	₦[250,000 – 300,000]
Platform licence, hosting, support & development	₦[100,000 – 150,000]
Total	₦400,000

Option B — Platform licence only (if management already contracted separately):

Item	Amount
Monthly platform licence & support	₦[100,000 – 150,000]
One-time setup / data migration	₦[optional]

Payment due by **[5th]** of each month to:

Account name: [Eric Umeohabike / Company name]

Bank: [Bank name]

Account number: [Number]

Tenant transaction fees (if any in future): to be agreed in writing before implementation; not charged during initial pilot unless stated: **[None / TBC]**.

6. Data, receipts & verification

The Landlord acknowledges that tenants commonly pay via **bank transfer** and present **physical or digital bank receipts** to the management office.

The Platform will:

1. Allow recording of payment amount, date, tenant, unit, and bank reference
2. Allow upload/attachment of receipt images or alerts
3. Require **management verification** before marking rent as confirmed
4. Produce monthly reconciliation reports comparable to manual ledgers

Historical receipts and bank records may be used to populate baseline data during setup.

7. Intellectual property

The Platform software, source code, branding, and documentation remain the **intellectual property of Eric Umeohabike** [or **Company Name** if incorporated], unless otherwise agreed in a separate written assignment.

The Landlord receives a **non-exclusive licence** to use the Platform for the Property during the pilot and commercial term.

Tenant and financial data belonging to the Property remains the Landlord's confidential information.

8. Confidentiality

Both parties shall keep confidential any proprietary business, tenant, and financial information accessed through the Platform, except as required by law or with written consent.

9. Pilot success criteria

At **90 days**, the parties will review:

- ☐ All **[80]** units registered with accurate tenant/rent data
- ☐ Minimum **[5–10]** tenants actively using tenant features OR all payments recorded by admin
- ☐ Minimum **N[amount]** rent recorded and verified through Platform
- ☐ Monthly report generated and accepted by Landlord
- ☐ Landlord satisfaction with arrears visibility and time saved vs manual process

If criteria are met, the parties will enter a **12-month Commercial Licence Agreement** on substantially the same terms.

10. Reference & endorsement

Upon successful pilot, the Landlord agrees to provide a **factual reference letter** confirming:

- Duration of the Provider's management of the Property since 2019
- Authorization and use of the Platform
- Measurable outcomes (collections recorded, tenants onboarded, operational improvements)

Subject to tenant privacy, the Landlord may allow **anonymised** dashboard exports for professional accreditation purposes.

11. Termination

Either party may terminate the pilot with **14 days' written notice**. Upon termination, the Provider will export the Landlord's data in a standard format (CSV/PDF) within **30 days**.

12. Governing law

This LOI is governed by the laws of the **Federal Republic of Nigeria**. It is intended to be morally binding on commercial terms once signed; formal definitive agreement may follow.

13. Signatures

For the Landlord:

Name: _____

Title: _____

Company (if applicable): _____

Signature: _____

Date: _____

Provider:

Eric Umeohabike

Signature: _____

Date: _____

Witness (optional):

Name: _____

Signature: _____

Date: _____

Appendix A — Property summary

Field	Detail
Property name	
Address	
Total units	~80 shops/offices
Provider managing since	2019
Primary rent cycle	Monthly / Quarterly
Current collection method	Bank transfer + physical receipt to office

This is a draft for legal review. Adjust with a Nigerian solicitor if needed before signing.
